About the University

The word **Mangalayatan** is fashioned by the combination of two words; Mangal & Ayatan that refer to the Home (Place) that endows contentment and positive vibrations. **Mangalayatan University (MU)** was founded with the vision of providing high quality education to students that would equip them with skills to distinguish themselves in today's fast changing world. There are close to 3000 students currently pursuing their graduate and undergraduate degrees in Engineering, Business Management, Biotechnology, Pharmacy, Visual & Performing Arts, Journalism & Mass Communication, Education, Travel & Hospitality Management and Computer Applications. As part of the promise to groom students into leaders of tomorrow, MU has strategically tied up with Educomp, one of Asia's largest education companies to have access to the best of teaching practices, training methodologies and the latest, industry-oriented curriculum development methods. MU boasts of a 70-acre lush green campus, replete with excellent sports grounds and facilities.

Institute of Engineering and Technology

The Institute of Engineering & Technology offers Graduate, Postgraduate & Doctral programs in the disciplines of Electrical & Electronics Engineering, Electronics & Communications, Computer Science, Information Technology, Mechanical Engineering and Civil Engineering. The curriculum of each program has been designed by top academicians with significant industry input, enabling students to get exposure to the latest technologies and industry trends.

Location

Mangalayatan University is situated at 33rd km stone on the Aligarh-Mathura highway near Beswan. Beswan is a town and a Nagar Panchayat in Aligarh district of Uttar Pradesh, India. It is said that Rishi Vishwamitra used to worship at this holy place and Beswan draws its name from him.

Objective

The objective of this conference is to provide a high-quality platform to present and discuss recent advances in technology and engineering. RATE-2012 conference aims to provide engineers, researchers working in academic institutes, industry experts and students a forum to share their research experiences as well as to exchange information related to Communication, Electronic Systems, Software, Electrical & Mechanical Engineering and Applied Science. The conference will include keynote lectures by prominent speakers from reputed organizations as well as technical sessions.

Conference Topics
